west of 199 Ave. controls  
discharge from SBDD Canal 13A  
into the C-11 Canal**

**SBDD S-8 Pump Station on Griffin Rd at 172 Ave. Pumps stormwater from SBDD Basin S-8 into the C-11 Canal.**

The other side of the S-8 Pump station

**SBDD B-3 Secondary Pump Station on NW 79 Way south of Taft Street in Pembroke Pines**

**SBDD B-5 Pump Station on NW 2 Street east of Palm Avenue**

Overflow weir at Gulfstream Park measures runoff overflow from stable area to stream behind the racetrack.

Debris Barrier to collect debris from Sunrise Blvd.  
and the Swap Shop going to the North Fork of New  
River.

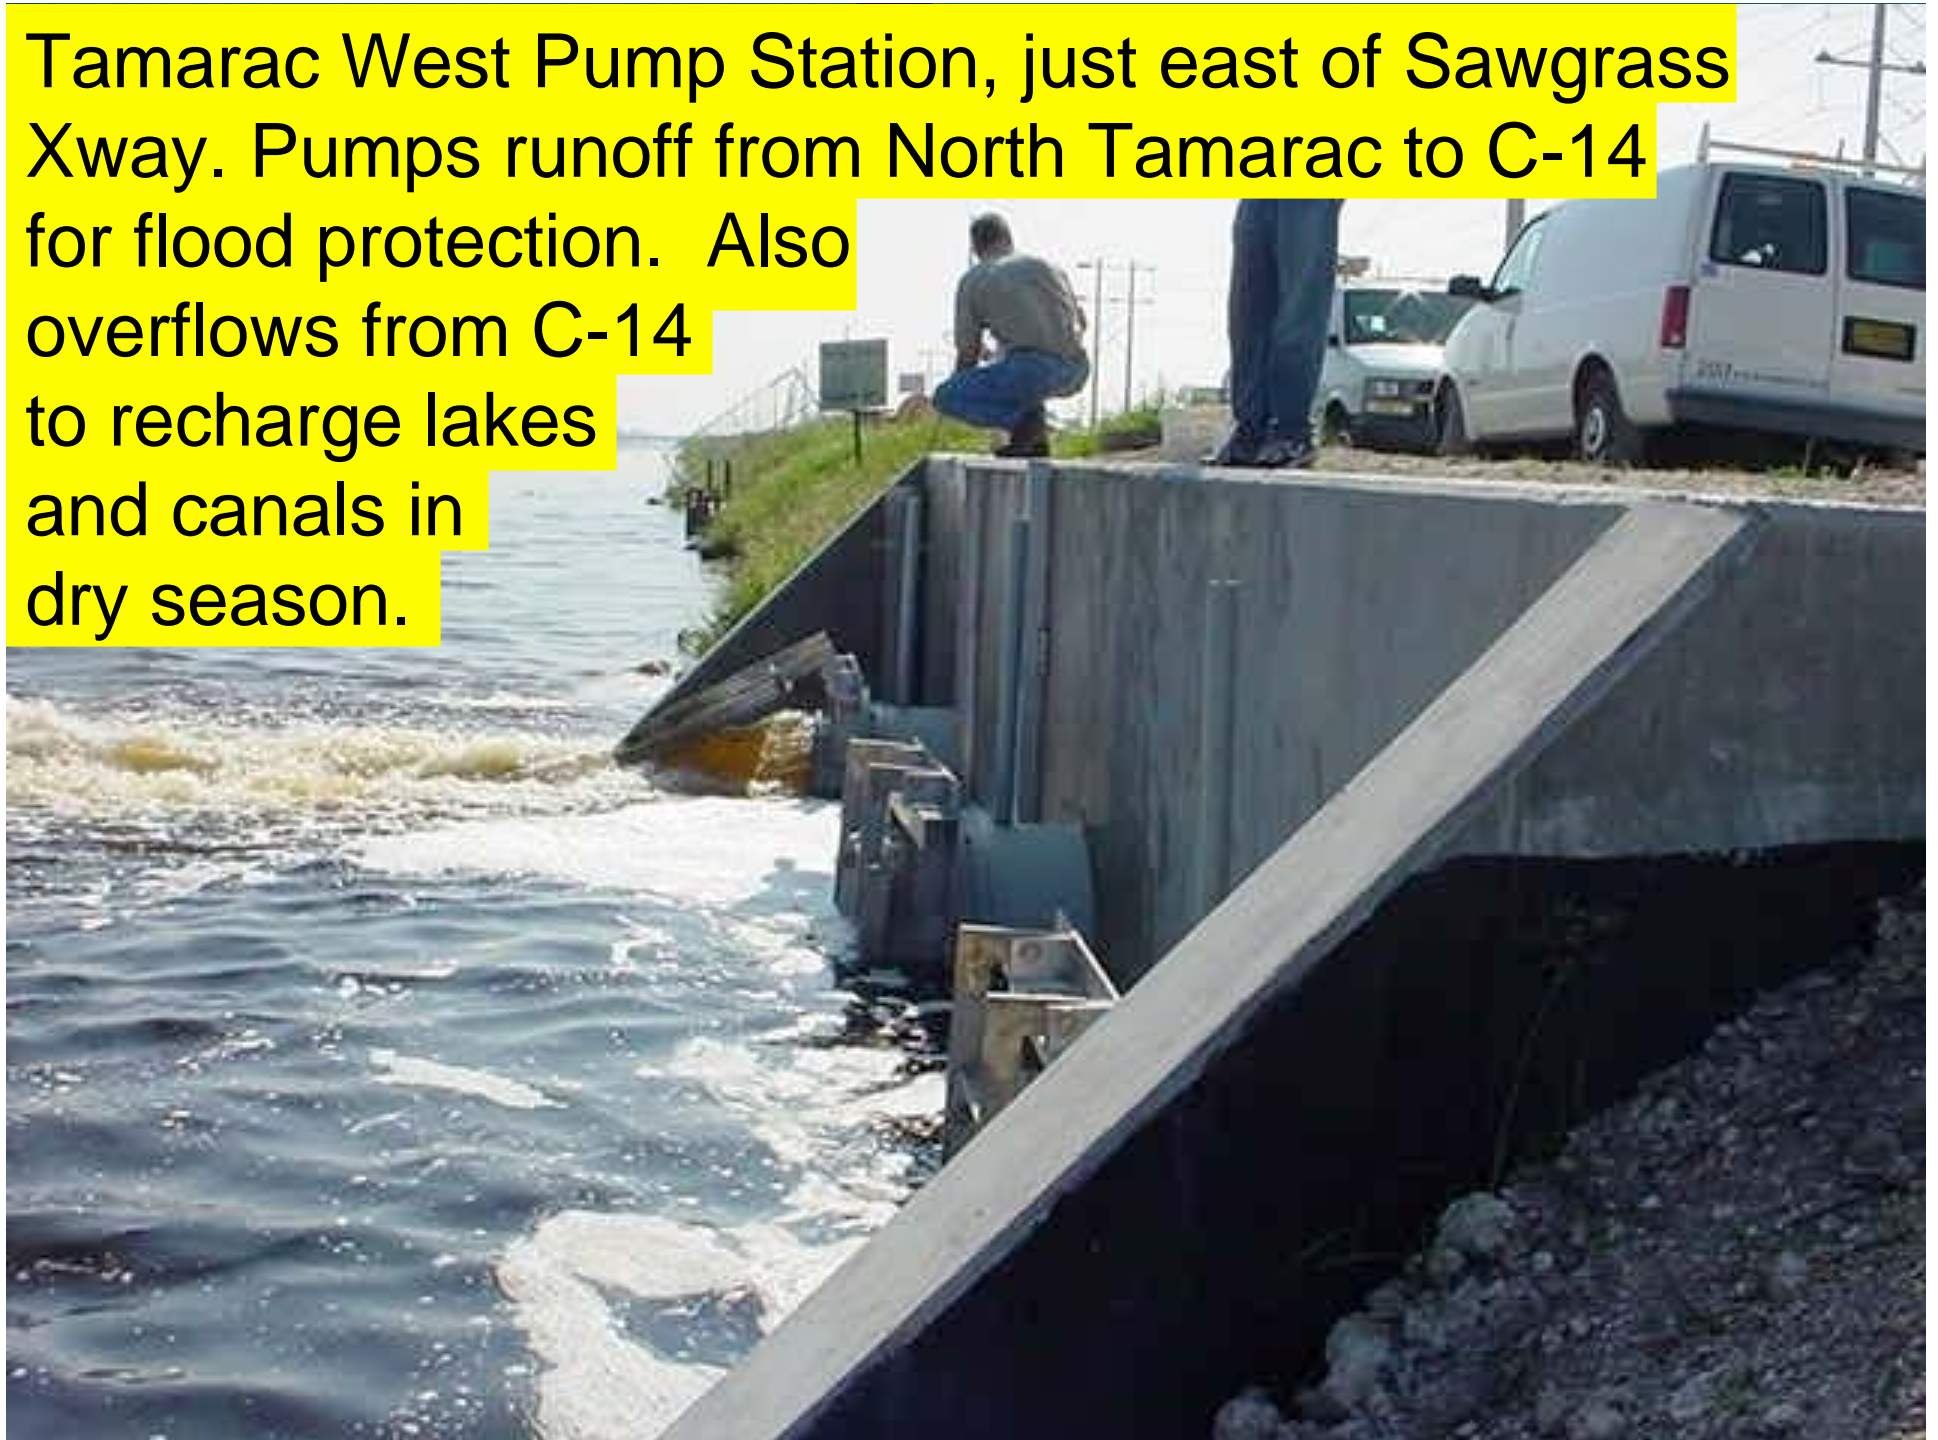

S-381 Designed to prevent urban runoff that flows into the C-11 Canal from Davie, Cooper City, Weston and Southwest from being pumped into the Conservation area.

Tamarac West Pump Station, just east of Sawgrass Xway. Pumps runoff from North Tamarac to C-14 for flood protection. Also overflows from C-14 to recharge lakes and canals in dry season.

The battle against hurricanes is won  
well before the hurricane season. (Max  
Mayfield)

If **A** equals success, then the formula is:  
 **$A=X+Y+Z$** . **X** is work. **Y** is play. **Z** is  
keep your mouth shut. (Albert Einstein)

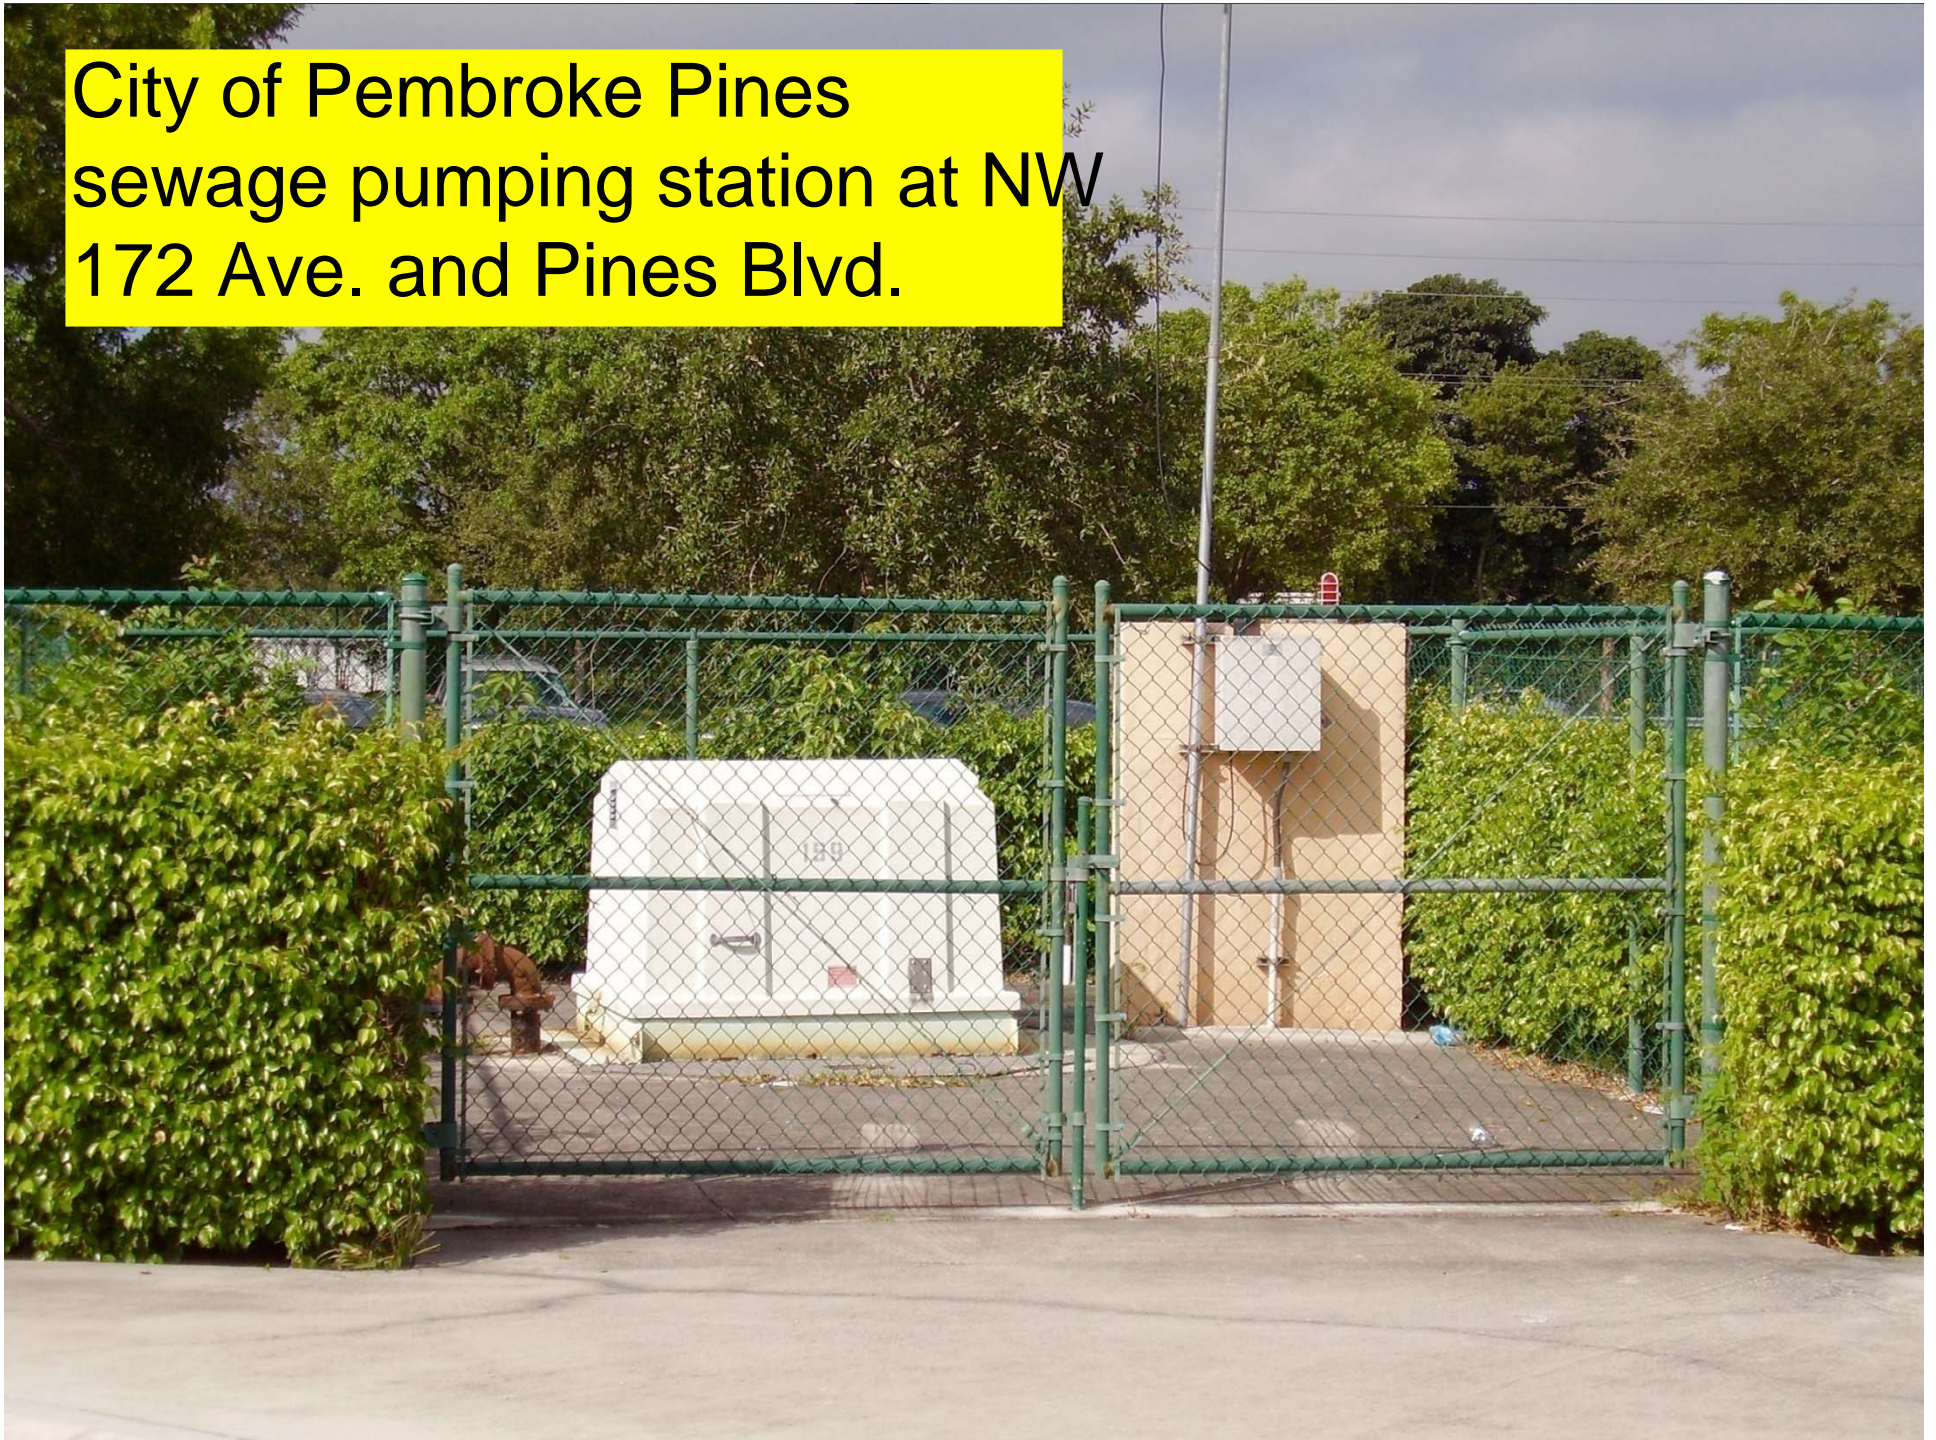

# **WATER AND SEWER UTILITY STRUCTURES**

City of Pembroke Pines
